# ⚠️ WARNING ⚠️

PLEASE READ THESE INSTRUCTIONS CAREFULLY AND KEEP FOR FUTURE REFERENCE

**⚠️ WARNING!** When using this product, safety rules must be followed. For your safety and for the safety of bystanders and property, read and understand these instructions before using the Square Fire Pit.

Failure to follow these instructions could result in fire or explosion, which could cause damage to property, personal injury or even death. If transferring ownership of this product, ensure these instructions are provided also.

Read the installation, operation and maintenance instructions thoroughly before installing or servicing this product. Improper installation, adjustment, alteration or improper or incomplete maintenance can cause damage to property or serious or fatal injury.

## **INTENDED USE.**

**⚠️ WARNING!** The Square Fire Pit is for outdoor use only. DO NOT use indoors. This product should NOT be used in motor homes, tents, sheds or any similar locations where ventilation is limited. Use only in an uncovered, well ventilated area. Position on a suitable heat-resistant surface such as a concrete patio slab.

## **IMPORTANT SAFETY INFORMATION.**

The Square Fire Pit is not a toy. Keep children and pets well away from this product at all times during use and when cooling.

Flammable materials and heat-sensitive items should be kept away from the product during use and when cooling.

Keep loose fitting clothing away and long hair tied back.

Do not overload the Square Fire Pit.

**IMPORTANT:** The Square Fire Pit should only be lit by safe means such as fire-lighters complying with EN1860-3. Pay close attention to all warnings and instructions provided with any lighting equipment/fuels. Always keep a fire extinguisher, garden hose, or bucket of sand nearby to smother the fire if necessary.

# ⚠️ WARNING ⚠️

PLEASE READ THESE INSTRUCTIONS CAREFULLY AND KEEP FOR FUTURE REFERENCE

**WARNING! DANGER OF CARBON MONOXIDE POISONING.** Do not light this product or let it smoulder or cool down in confined spaces. Do not use under awnings, parasols or gazebos.

Never handle charcoal after lighting. Always use the Poker provided.

**⚠️ WARNING!** The Square Fire Pit will become extremely hot during use and cannot be moved.

To avoid injury, be aware that the resting surface directly underneath the Square Fire Pit will become very hot during operation and will remain hot for some time afterwards. Keep feet, other limbs and all property/items well away from this area.

To avoid burns, do not touch metal parts of the Square Fire Pit until it has completely cooled. Handles will become very hot and unsafe to touch during use, unless you are wearing rated protective gear (pot holders, BBQ mittens, hot pad etc). Standard household oven gloves will NOT offer sufficient protection and should not be used.

Hot embers may be emitted during use.

Never leave a burning fire unattended.

Extinguish immediately after use. Do not splash water over a fire to extinguish as the resulting smoke can cause eye/respiratory irritation. Carefully douse using a suitable extinguishing medium, keeping sufficient distance for safety.

The Square Fire Pit may appear cool but may still be retaining dangerous heat. Exercise extreme caution when handling.

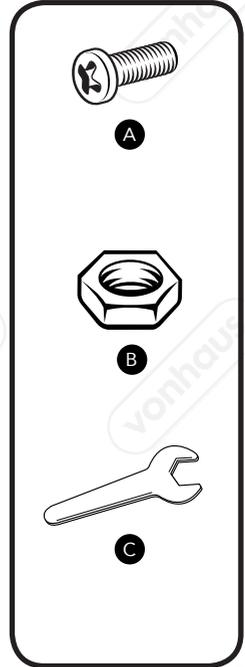

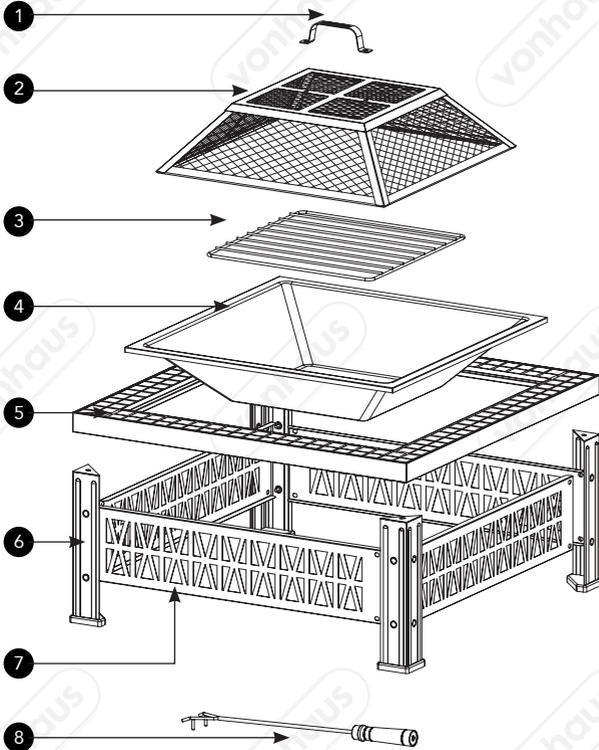

Ensure the coals/logs have completely burnt before removing the ash.

Do not dump ashes where they could start a fire. Always dispose of ashes in a proper receptacle.

The Square Fire Pit should only be moved and stored when it has completely cooled and all flammable materials have been extinguished and disposed of safely.

Store away ONLY when the Square Fire Pit is completely extinguished and cool. This may take some time after use.

# SPECIFICATION

1. Handle.

2. Mesh.

3. Grill.

4. Fire Pit.

5. Fire Surround.

6. Legs (x4).

7. Leg Supports (x4).

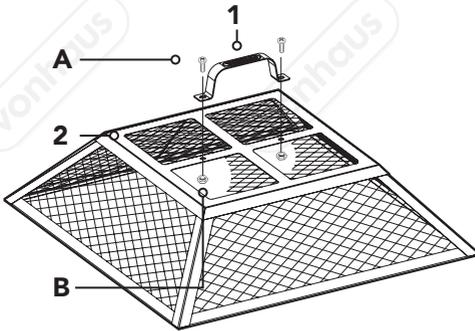

8. Poker (x1).

A. Small Screw (x2).

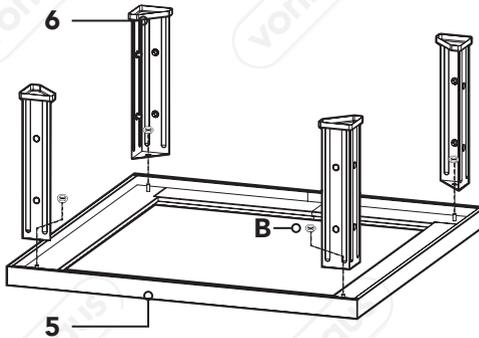

B. Small Nut (x22).

C. Wrench (x1).

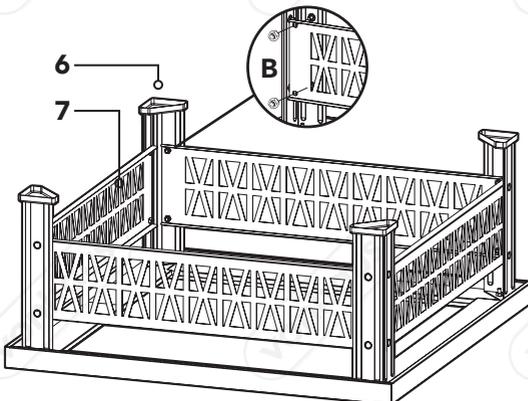

# ASSEMBLY

Align the HANDLE (1) with the small holes on top of the MESH (2) and fix into position using 2 x SMALL SCREW (A) and 2 x SMALL NUTS (B). Ensure the HANDLE (1) is securely attached before initial use.

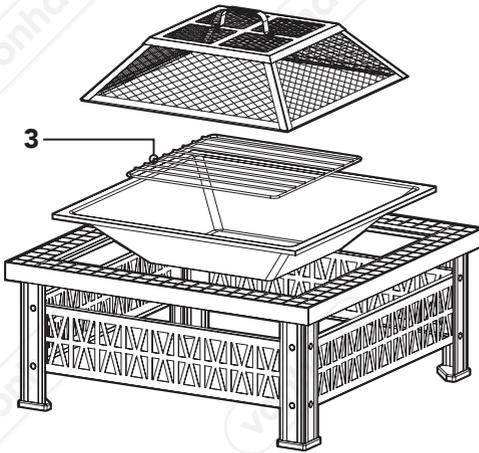

Invert the FIRE SURROUND (5) and align the 4 LEGS (6) with the 4 threaded heads in each corner. Secure each of the LEGS (6) using 4 x SMALL NUTS (B).

Place each of the LEG SUPPORTS (7) in between each of the legs over the threaded heads. Secure each SUPPORT using the remaining 16 x SMALL NUTS (B). Use the WRENCH (C) supplied to ensure all nuts are tightened and secured before carefully inverting the assembled Fire Pit into the upright position.

# OPERATION

Set up the Square Fire Pit in a safe area with sufficient space and ensure it is set on a secure level surface before placing 3-4 small logs into the centre before adding the GRILL (3).

**NOTE:** Ensure the logs are halved as they will burn quicker. Lay the logs side by side and stack on top like a pyramid but make sure there is space between to allow for air circulation. If required, add several pieces of charcoal or charcoal blocks to aid the fire.

**TIP:** Scrunched up newspaper or small branches will aid the fire quicker. Ignite using long safety matches or a long nosed lighter (not supplied).

**WARNING! NEVER** ignite the contents of the Square Fire Pit using liquid grill lighters. Avoid adding too much flammable materials as this can cause the flame to emerge through the MESH.

**WARNING! NEVER** leave a fire unattended and keep children and pets well away when ignited.

Allow the fire to extinguish on its own, or extinguish the fire using the POKER to carefully spread the contents around the base of the Square Fire Pit.

Adding a layer of sand and spreading again with the POKER will quickly put out the fire.

**WARNING! NEVER** use water to douse the fire as this can cause rusting to the BOWL and could also produce steam that poses a scalding hazard. Allow the Fire Pit to cool completely before cleaning.

# CARE AND MAINTENANCE

Once the fire is completely extinguished, use the HANDLES to slightly tilt the FIRE PIT and remove the ashes by sweeping them out of the centre and into a suitable disposal container.

**NOTE:** It is recommended to do this as soon as possible after use. Having ashes from a previous fire remain at the bottom will slow down new fires you wish to build.

Store in a cool dry place.

Ensure the Square Fire Pit is clean and dry, thoroughly cool and thoroughly cleaned of all ash and unused fuel/coals before storing.

Protect from severe weather conditions. We recommend that you use a cover to protect this item when not in use.

**CAUTION:** The Square Fire Pit must be completely cool before covering.

# CUSTOMER SERVICES

---

If, for any reason you are experiencing difficulty using this product, please contact [hello@domu.co.uk](mailto:hello@domu.co.uk)

## DISPOSAL INFORMATION

---

Please recycle where facilities exist. Check with your local authority for recycling advice.

## WARRANTY

---

To register your product and find out if you qualify for a free extended warranty, go to:

**[www.VonHaus.com/warranty](http://www.VonHaus.com/warranty)**

Please retain a proof of purchase receipt or statement as proof of the purchase date.

The warranty only applies if the product is used solely in the manner indicated in the Warnings page of this manual, and all other instructions have been followed accurately. Any abuse of the product or the manner in which it is used will invalidate the warranty.

Returned goods will not be accepted unless re-packaged in its original packaging and accompanied by a relevant and completed returns form. This does not affect your statutory rights.

No rights are given under this warranty to a person acquiring the appliance second-hand or for commercial or communal use.
