SAFETY INFORMATION

IMPORTANT SAFETY INFORMATION

Do not use the tool for any purpose other than which it is designed for. The tool is not a toy. Children should be supervised to ensure that they do not play with the tool.

The use of knives or attachments which are not recommended may result in product damage or the risk of personal injury.

Always keep hands away from the blade.
Always wear safety glasses during the use of the laminate cutter.
Everyday eyeglasses only have impact resistant lenses, they are NOT safety glasses.

WARNING Do not operate your laminate cutter until it is completely assembled and working according to the instruction manual.

NEVER FORCE It will do the job better and safer at the rate for which it was designed.

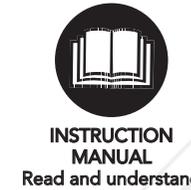

ALWAYS KEEP WORK AREA CLEAN Cluttered areas and benches invite accidents. Make sure the floor is clean and not slippery due to wax or sawdust build-up.

DO NOT LIFT the laminate cutter by the handle. Always use on a level surface.

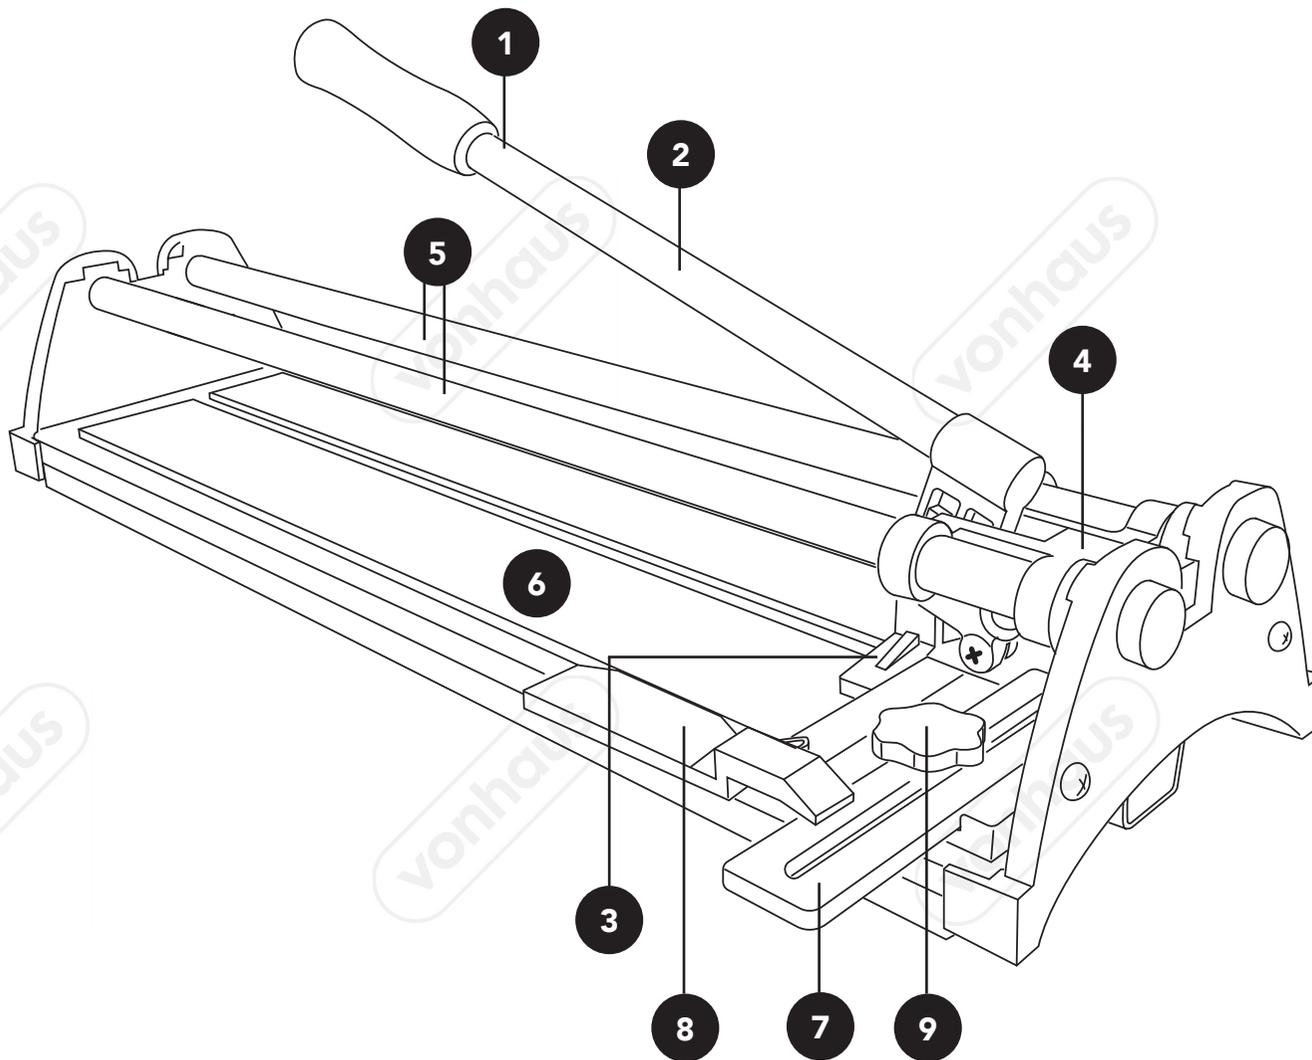

CAUTION The assembly pack contains small parts which can pose a choking hazard to children and pets.

NOTE The **Handle Assembly (1,2)** will require attaching to the **Breaker Bar Assembly (3)** before first use.

Screw the thread of the **Handle Assembly (1,2)** in an anti-clockwise direction onto the **Breaker Bar Assembly (3)**.

OPERATION

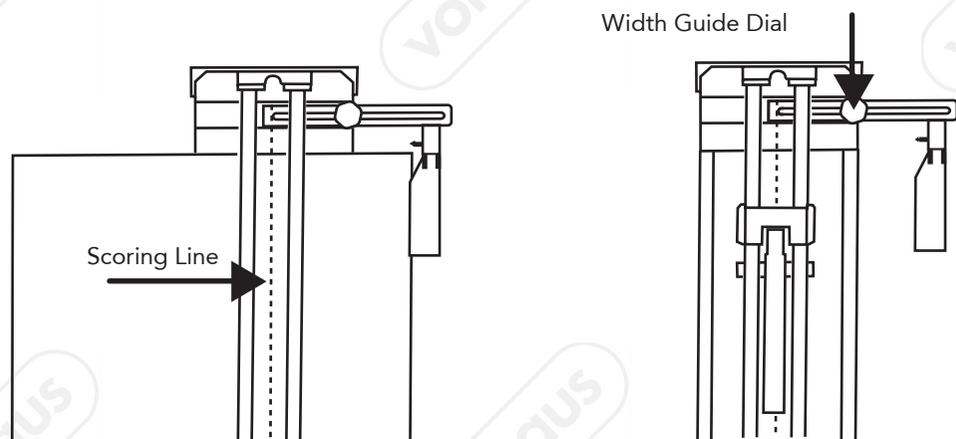

WARNING Always keeps hands and fingers away from the Blade.

TIP When possible, use a sample piece to familiarise yourself with the tool before committing to your intended workpiece.

RIP CUT

Place the tile at the front edge against the front stop.
Position the tile so the line of cut is directly over the scoring line, which is the line between the left and right pad.

Adjust the cutting guide by loosening the **Width Guide Dial (9)** and sliding it left or right to the desired cutting position, and lock the cutting guide in place.

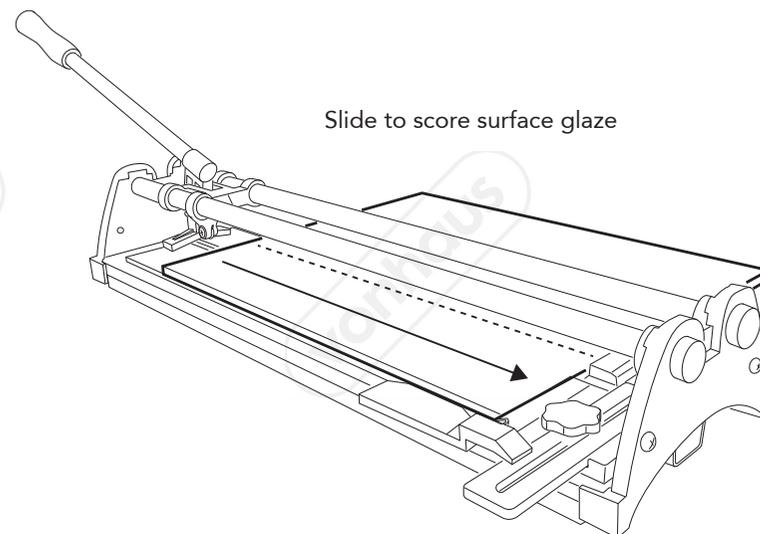

MAKING THE CUT

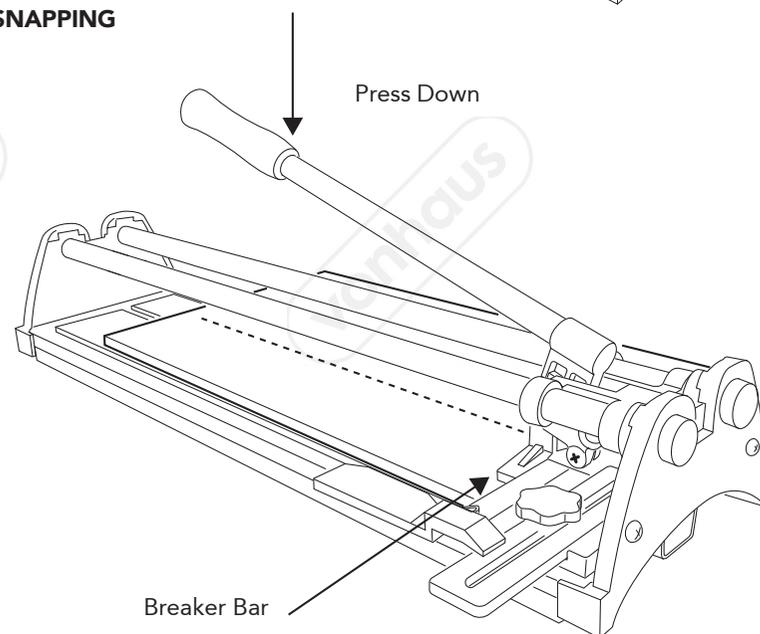

Place the cutting wheel on the rear edge of the tile.
Then slide the wheel forward by pushing the handle down with medium pressure, scoring the tile surface glaze as the handle is pushed forward.

NOTE It is important to make one continuous motion, scoring the surface only once per tile. After scoring, and without moving the tile, position the handle so that the **Breaker Bar (3)** is slightly in from the front edge of the tile and front stop. Apply
